"The body is a nuisance to get rid of," he continued, "and when the separation takes place we should try to regard the process with intelligence and not with emotion. Do not be afraid of the word death. There is, in a way, death, but there is no extinction. Whatever you think about the body, do not think of the grave

#### **BOMB EXPLODES** NEAR CAFE ON WILSON AVENUE

A small black powder bomb was ex-ploded late last night in an areaway next to the Alamo cafe, 831 Wilson avenue, one of the centers of night life on the north side. The damage was negligible and according to James Davis, manager of the place, several hundred guests who were dancing at the time were not aware of the blast.

Lieut. Charles Egan of the detective bureau bomb squad, investigated and found bits of the bomb scattered in the vicinity. One window was broken.

Twenty families living in a four

story building at 410 South Halsted street were thrown into panic last night when a black powder bomb was exploded in the front doorway. The hallway was damaged and a plate glass window shattered in a cigar store at 412 Halsted street. The police theory is that Black Hand activity is behind the bombing. Residents of the build-

Steering Gear Wrecked. "This attempt to lighten their lot was our undoing, for the steering gear

broke under the strain and we were entirely at the mercy of the sea. We were drifting and the sea was heavy. It was decided, therefore, to get rid of the cattle on top of the deck. We had to drive them to the side of the ship. They seemed to know they were going to die, and some of them fought pitiably and hard. They braced their forefeet against the side and held themselves, and others, back in spite of pitchforks and the other instruments with which we were armed. Those that were not flung overboard by the roll were hitched up one of the winches and dragged ng to the side."

For Mademoiselle to Wear in Town and Country

Exquisitely embroidered pouch sleeves, scalloped capes, shoulder capes, divided capes, or no capes distinguish the newest Spring Coats. Severe simplicity rivals elaborate traceries of silver thread on sleeves and skirt for honors. To be smart, the Easter coat does not necessarily have to be trimmed with fur. Either the furtrimmed coat or the plain is correct.

Stevens fur-trimmed coats for demoiselles use Krimmer, Caracul, Ermine, Natural Squirrel, Jap Fox, Bleached Marten, and Badger. Fabrics give a choice of Cheviot, Candia, Kashmirlitta, Charmeen, Twills, Serapheen, Kasha, Mixtures, and Tweeds-every one correct for Spring in line and weave.

We Sold 3,700 Sets Made by this Same Manufacturer in Our Last Great Sale

Several months ago we created a furore in Chicago when we sold about 3,700 sets made by David Grimes, Inc. Our Great Success in That Sale

and the fact that we received so many letters of commenda-tion, telling of the good results obtained by our customers put us in a very receptive mood when we were offered the opportunity of again sharing in a similar event.

We Are Very Exacting in Our Selection of the Radio Sets We Sell

—and from our satisfactory experience in the former sale of this set, we enthusiastically recommend them to all who want a fine set at a very low price. This Is a New 5-Tube Storage Battery Set. It Is Up-to-Date in Every Respect

**NOT AN OBSOLETE MODEL** One of the finest Five-Tube Sets that has appeared on the market this year. You can tell the moment you look at it that this is no ordinary radio set—the beautiful hardwood cabinet with overlay panels of genuine mahogany and the shielded black metal front, handsomely engraved and emblazoned in copper—is unusual in itself. The moment you feel the velvety fine precision tuning of the dials you know that here is as fine a 5-tube set as money can buy.

For Youth

The Schoolgirl's Coat Adapts the Cape

And that it is a clever adaptation one may note in the sketch above at the left. The firm twill used in this coat is especially lovely in its soft colors. \$65.

New coats for the variable weather of spring, coats for dress-up, \$17.50 to \$75. Fourth Floor, East.

#### New Junia Hats Interpret The Spring Fashions

"Junia" has come to mean smartness in young girls' hats. It's a smartness that comes from thorough understanding of the varied types of young girlhood and each Junia hat is different and individual.

Fifth Floor, North.

These Hats Affirm the Vogue of Straw and Silk

THE spirited beauty of this spring's new fashions seems singularly adapted to I youth. And the modes presented at this event are indeed the sum and substance of youthful charm and winsomeness. Opening Week reaches a fine climax with these displays, so clearly do they mirror fashion at its loveliest.

#### Misses' Taffeta Frocks Make a Point of the Flare

Definite little points, indeed, in the frock sketched in the center above-for they mark the ends of a rippling, flaring little peplum at the edge of a quaint tight bodice.

That the taffeta is blue or rose and the bandings silvered ribbon accentuates the sheer youth of this frock. Priced at \$125.

Lace spreads its filmy meshes over a Pompadour silk to make another lovely frock, and nothing could have more charm than the airy, colorful frocks of chiffon.

These are made layer on layer, and are an important part of the summer evening mode. Prices vary with style, \$65 to \$150.

# For the Very Youngest Generation

Springtime comes to Babies' Own Section with a blossoming of flower-like frocks-coats sturdy enough to defy the bluffest winds-coats decorative enough for Easter day. And fine little underthings to complete the outfit.

In the sketch-a coat of black satin with sprays of bright embroidery is \$32.50. The hat to match is \$16.75. Coats of suede-like fabrics, soft and rich, are \$37.50. The hat, \$13.75. And wee frocks of silk crepe all pleats, \$15.75.

#### The Tailleurs for Misses Black-and-White In Shepherd's Checks

A jaunty little cape flashes its snowy lining against the clear black-and-white of the shepherd's checks which fashion the suit sketched left below. The cape is removable. The skirt to accompany it is straight and slim. This suit is \$75.

Then, too, there's the very new and very smart "Tuxedo" suit of twill, with revers faced in satin and tailored gilet, which simulates blouse and a waistcoat with little pockets. \$65. Suits present a most interesting phase of fashion.

Fourth Floor, South.

#### Misses' Coats Take Three Ways to Smartness

Straight and very simple-a bit more elaborate and often with fur-or relying entirely on fabric, which is bright in color and patterned. Accordingly, \$50 to \$150.

The coat at right above is of soft tan wool with a panel of gazelle fur. \$135.

#### What Will They Do with Veltman?

#### BY JAMES CRUSINBERRY.

Shreveport, La., March 18 .- [Spe al.]-There's a young man in the ing camp down here that the e Sox officials don't know what to do with. His name is Art Velt-man and he came from San Antonio, where last year he played with a semi-pro team. Somebody tipped off the Sox officials that he was worth ing at, so they invited him over

and signed him to a contract. Is he worth looking at? He's had everybody, including the rail birds, looking at him. In fact it's a pleasure to look at him when he's in action on the ball field. It's such a pleasure that Boss Collins and Secretary Grabiner aren't sure that the folks on the south side in Chicago wouldn't

But the lad isn't twenty years of age yet and naturally hasn't had experience to make good in the big show. He has had so little experience that Boss Collins isn't yet sure whether he's an infielder, an outfielder, or a catcher. The boy has played everywhere on the diamond in his sand lot

#### And He Can Hit Too.

So far he has done most of his work in the outfield, but in one of the practice contests Collins placed him at first base and he looked good. He hasn't tried him behind the plate and probably will not, but the boy has done a lot of catching. The thing that stands out is his ability to bat. He's no greenhorn.

He's no greenhorn.

Collins sent his gang through another three hours of drilling today in their final practice before moving over to Fort Worth for games tomorrow, rday and Sunday. He wound up ression with a practice thit of four

ichalk Captains One Team.

Only a little more than half of the gued will go to Fort Worth, the other art remaining here under the leaders are usual. They will asked:

In their training here they give the customary promise of doing some things to the Giants and Pirates, or other leaders, as usual. They will asked:

The world's fastest electric railroad is now under construction on Chicago's North Shore. It will be ready to operate in a few short weeks.

The first wheel that turns on this great transportation artery should double land values in the territory it serves. More than that, the state is building another "Sheridan Road," a great 100 foot boulevard right through this section, another factor bound to enhance values immensely.

#### Here is your great **OPPORTUNITY**

We have just secured, at a most attractive price, a tract of land immediately adjoining one of the stations of this new electric road. The state long boulevard cuts through the center of our holdings. Before we announce the great one-day sale which we know will close out every foot of this choice parcel, you are given this opportunity to get all the facts regarding it and to profit even more handsomely than those who buy on sale-day.

DUBLIC gathering places of only a few decades ago were for the most part dimly lighted, stuffy halls, · ill-suited to the comfort, convenience or health of the people who frequented them. ~ Today, brilliant electric lights add to the beauty, as great electric fans add to the ventilation, of modern places of amusement. The Age of Electricity is one of pleasure and health.

In bringing modern conveniences to people who are used to the best, Power and Light Companies have built up a source of revenue which can never fail them. American life will not go backward in its trend toward greater comforts, nor Electric Power and Light Companies fail to meet the demands made on them. The bonds of these companies are the ideal investment because of this well demonstrated fact.

Viewed from one angle, North America accepts toward the rest of the world the petitism which was occupied by the British lists toward the more backward paces throughout the 19th century. But from the historic angle, which is yet living fact in hundreds of American counties, much of American is as Africa, Australia or South America to foreign industrial areas. Nor does this merely apply to Europe. The structure of the new Japanese capitalism is wrought of two fibers—capes the boll weevil, and upon these delicate threads and the hazards of insect life depends the second most interesting industrial development of the world today.

Holders of no par value common stock of Tide Water Oil Company desiring to accept such offer of exchange must deposit their certificates for such no par value common stock on or before March 20, 1926, with Tide Water Oil Company, Stock Transfer Department, 11 Broadway, New York City, New York. Against such deposit interim certificates of Tide Water Oil Company will be issued calling for the delivery of the new stock to be issued in exchange therefor, on or after March 30, 1926. The acceptance of such offer for the exchange of stock shall be evidenced by the stockholder at the time of such deposit by signing the printed form of acceptance. Said form should then be forwarded or delivered by the stockholder to Tide Water Oil Company, Stock Transfer Department, with

the certificates for Tide Water Oil Company no par value common stock. All certificates for the stock of Tide Water Oil Company so deposited for exchange into stock of this Company must be duly endorsed in blank or accompanied by duly executed instruments of assignment in blank properly stamped for transfer and in form good for New

York Stock Exchange delivery

No fractional shares of this Company's stock will be issued but if any stockholder of Tide Water Oil Company shall become entitled to receive on such exchange a fraction of a share of this Company's stock the Company will issue non-dividend non-interest bearing scrip certificates without voting rights, representing such fraction and containing such other provisions as shall be fixed by the Board of Directors. Such scrip certificates for fractional shares may be offered in amounts aggregating one or more full shares for exchange into the equivalent number of full shares of this Company's common stock without nominal or par value within such reasonable period from date of issue of such scrip certificates as may be determined by the Board of Directors and stated in such certificates.

TIDE WATER ASSOCIATED OIL COMPANY By Axtell J. Byles, President

Dated March 6, 1926.

To the Holders of Stock of Associated Oil Company

To the Holders of Common Stock of Tide Water Oil Company: ng is a summary of my letter of March 6, 1926, to the stock-

ORGANIZATION The New Company has been organized under the laws of Delaware with powers, among others, to engage in the petroleum business generally, including the power to acquire securities of other companies.

CAPITALIZATION Assuming the exchange of all stock of the Associated Oil Company now outstanding and of all Common Stock of the Tide Water Oil Company out-

outstanding and of all Common Stock of the Tide Water Oil Company outstanding as of December 31, 1925, under the terms of the above offers and the issuance of 500,000 shares of Common Stock proposed to be sold for cash, the share capitalization of the New Company would be as follows:

Convertible 6% Cumulative Pre- Authorized Outstanding ferred Stock (\$100 par value) . . . 1,500,000 shares 763,471 shares

Common Stock (no par value) . . . 10,000,000 shares 5,480,733 shares

The above outstanding amount of Tide Water Associated Oil Company

Common Stock may be increased in the event of the issue of Common Stock by Tide Water Oil Company through conversion of its Preferred Stock.

EARNINGS The operations of the Associated Oil Company have resulted in a profit every year since its organization. This is also true of the Tide Water Oil Company with the single exception of 1921, a year of general readjustment.

The following are the consolidated net profits, available for dividends on the respective Common Stocks of the Associated Oil Company (and Proprietary Companies) and of the Tide Water Oil Company (and Subsidiary Companies)

providing for depletion, depreciation, interest, Federal taxes, etc for the year 1925 are approximate. \$4,291,969 \$4,923,317 1922

\$9,215,286 8,858,898 2,908,216 3,898,413 5,678,059 5,950,682 10,303,742 17,678,059 6,405,329

 Adjusted to include the profits and earnings represent tain affiliated companies acquired as of January 1, 1926. The above combined net profits for the year 1925 are equal to over 3.85 times the annual dividend requirements on the 763,471 shares of Preferred Stock of the New Company referred to in the foregoing table of capitalization: and after allowance for said Preferred dividend are equal to approximately \$2.40 per share on the 5,480,733 shares of Common Stock of the New Company

pa.4.v per snare on the 3,480,733 shares of Common Stock of the New Company referred to in said table, without including any benefit from the cash capital raised by the sale of the Common Stock for cash.

The above profits of the Associated Oil Company prior to 1925 are not comparable with the 1925 net profits, as adjusted, owing to the fact that the profits for such prior years do not include the profits from properties acquired as of January 1, 1926.

OPERATING COMPANIES Associated Oil Company, organized in 1901, is one of the oldest and most important oil companies in California, being engaged in all principal branches of the petroleum business.

most important oil companies in California, being engaged in all principal branches of the petroleum business.

Including certain properties and interests in companies which have recently been acquired, the Company and proprietary and affiliated companies own in fee 45,861 acres and have leases or location rights on an additional 127,349 acres—a total of 173,210 acres in California, Texas, Colorado, Wyoming and Alaska. The gross production, including royalties, for the year 1925 was 18,211,030 barrels of crude oil, in addition to which the Company purchased a total of 22,177,325 barrels.

The Company owns 266 miles of pipe lines, having a combined daily capacity of 165,000 barrels, and also owns a one-third interest in the Associated Pipe Line Company, having two pipe lines to San Francisco Bay, with an aggregate mileage of 561 miles and a carrying capacity of 50,000 barrels per day. The Company owns the Avon Refinery on San Francisco Bay, covering 1,269 acres and having a daily capacity of 55,000 barrels; it also owns two topping plants, one of 10,000 barrels daily capacity near Los Angeles. It has tanks and reservoirs, with a total storage capacity of 24,294,300 barrels.

The Company owns a fleet consisting of 12 tankers and 9 barges, lighters, etcl., with an aggregate deadweight tonnage of 93,868 tons and with a carrying capacity of 656,955 barrels.

Tide Water Oil Company, organised in 1888, is engaged directly and through subadiaries in the various branches of the petroleum industry. The principal refinery, located at tide water at Bayonne, N. J. (New York Harbor), has a capacity of about 40,000 barrels a day. It covers approximately 175 acres and is equipped with ample docking facilities to handle incoming shipments from California, Gulf ports and foreign countries. One topping plant is owned of 10,000 barrels daily capacity in Oklahoma (Drumright), and a five-eights interest in another of 3,000 barrels daily capacity in Texas (Burkburnett).

The oil and gas leases of the Company (including subsidiaries and controlled companies) total some 287,500 acres of developed properties and 221,700 acres of undeveloped properties situated in Oklahoma, Kansas, Texas, Arkansas, West Virginia, Pennsylvania, Illinois, Kentucky, Louisiana and New Mexico. The net production from these properties for the year 1925 aggregated 5,576,858 barrels, coming from some 6,700 wells, in addition to which the Company purchased about 8,300,000 barrels of crude oil.

The Company, through its subsidiaries, owns and operates 833 miles of trunk pipe lines extending from Stoy, III., to Bayonne, N. J.; a ffeet of five tank vessels, with an aggregate deadweight tonnage of 44,500 tons, having a carrying capacity of about 319,000 barrels; and a lighterage fleet and terminal railroad

at Bayonne, N. J.

The combined volume of sales of Associated Oil Company and Tide Water
Oil Company for the year 1925 aggregated over \$150,000,000.

DIVIDENDS

DIVIDENDS

The Associated Oil Company is now paying dividends on its \$57,260,300 capital stock (par value \$25) at the rate of \$2 per share per annum (8%). Dividends have been paid continuously on its capital stock since 1913.

Tide Water Oil Company is paying dividends on both classes of its stock (namely \$23,410,700 Preferred and 2,061,223 shares Common). The dividend rate for the current payment on the Common Stock has been increased to 37½ cents per share, or at the annual rate of \$1.50 per share. Dividends have been paid continuously on the Common Stock commencing with 1903 to date, except for one year. except for one year.

It is the intention to inaugurate dividends on the Common Stock of the

New Company at the annual rate of \$1.20 per share.

BALANCE SHEET

The Consolidated balance sheets as of December 31, 1925, of Associated Oil Company and Proprietary Companies, and of the Tide Water Oil Company and Subsidiary Companies reflect the sound financial condition of both companies. The combined statement shows a ratio of current assets to current liabilities of over 4.50 to 1, and a net working capital position of over \$57,000,000.

PREFERRED STOCK CONVERTIBILITY The Preferred Stock is to be convertible at the option of the holder at any time on or before July 1, 1936, into Common Stock of the New Company as at the time constituted at the rate of \$50 per share; that is, each share of Preferred the time constituted at the rate of \$50 per share; that is, each share of Preferred Stock of \$100 par value is to be exchangeable for two shares of Common Stock. At the time of conversion, an adjustment is to be made of accrued dividends on the terms and conditions to be stated in regulations to be adopted by the New Company. If any Preferred Stock shall be salled for redemption, the right to convert is to extend up to ten days prior to the date fixed for redemption. The Charter provides for the protection of the conversion price in the event of a stock dividend or under certain other conditions specified in the charter. Reference is made to the charter for a full statement of the provisions respecting the rights of the preferred stockholders.

A review of the foregoing brings out the fact that each Company has a long record of successful operation. In the opinion of their managements, the New Company will be one of the best haladeed units in the petroleum industry, well fortified in p. o luction, transportation, refining and marketing. The refineries of the New Company on the East and West coasts and in the Mid-Continent field of the United States, will be assured of supplies of crude oil from the long-lived and large reserves of the Associated Oil Company on the Pacific Coast and of Tide Water Oil Company in the Mid-Continent and East-ern fields. The tanker fleets of the two companies operating through the Panama Canal and elsewhere make it possible under the new relationship, to transport crude oil or refined products most economically from sources of supply to both foreign and domestic markets, including movements between the two American coasts.

Each Company has had the benefit of a sound development under conservative management. These principles will continue as the policy of the New Company. Its Board of Directors will consist of

# What Kind of People Are "WORLD" Readers?

A Cross-Section of the New Yorkers Who Make These Big Stores Possible \*THE WORLD

Morning-Sunday
THE EVENING WORLD

Weekdays

HE above group of department stores represent, collectively, the most important body of merchants in America. They did a gross business last year of approximately \$370,000,000. It has been estimated that they invested upward of \$10,000,000 for advertising space in the eleven leading newspapers of the city, or from \$7.00 to \$8.00 per annum for every family in Greater New York.

Advertising with these merchants long since ceased to be a matter of guesswork. It is one of the most scientifically worked out phases of their business; because merchandise is of variable value, whereas advertising is a fixed-priced commodity, and the problem is not how it can be made to produce results to-day, by reason of prevailing conditions, but how it can be made to pay consistently 365 days a year.

Every dollar expended in newspaper space by a department store is expected to produce concrete results in sales within forty-eight hours. No item of investment (or expenditure, if you will) is more closely watched than the advertising budget of the big store. It is usually the owner's direct responsibility.

These seventeen stores, influenced solely by the experience of many years, placed 22.5% of all their advertising in 1925 in THE WORLD and THE EVENING WORLD.

Out of a total of 29,000,000 lines of space, WORLD SERVICE received 6,537,000 lines. Assuming the laborer to be worthy of his hire, it is logical to suppose that America's foremost group of merchants held THE WORLD and THE

EVENING WORLD responsible for 22.5% of their total sales of \$370,000,000, or \$84,000,000—an impressive return for any two papers to produce as part of their year's work, especially when we consider that this sum is divided among only seventeen stores.

The proportionate use that these merchants made of WORLD space, as compared with their total lineage, is an interesting indication of the trend of advertising in Greater New York:

The foregoing tabulation conveys an important message to two classes of advertisers:

A—The smaller local merchant, to whom the precept of the larger advertiser, based on patiently tried-out experience, is the only dependable guidepost to which he can reliably look for intelligent direction; and

B—The national advertiser, who can never hope to have the intimate knowledge of the New York market possessed by the local merchants, and who must look to these very merchants for precedent in entering this market.

This information goes one step further, however. The preceding list is made up of stores catering to every class of buyer in New York—both extremes of purchasing power are represented, and, as between classes, there is no violent fluctuation in the percentage of total lineage represented by WORLD space.

It would seem, therefore, that a cross-section of the great mass of customers who make these big stores possible is a true picture of the typical reader of THE WORLD and THE EVENING WORLD—the average, well-to-do, prosperous New Yorker, the very backbone of all the city's vast commerce.

# Girls' Week Sunday

Girls' week will be ushered in with grand rally at the Great Northern to determine not only their mental ability but their adaptability for certain work or subjects.

"Nearly 50,000 children, or 11.1 percent of the 450,000 children attending the schools, fall and repeat grades every year," Dr. Singer said. "No effort was made in the vast majority of cases to find out why the child failed, or to stop this financial loss, or is remedy any of the causes."

Dr. D. P. MacMillan, head of the bureau of child study in the public schools, admitting the situation to be true, declared that his bureau was in adequately equipped to meet the problem in any effective manner.

"Our bureau cannot take care of more than 8,000 problem cases yearly," Dr. MacMillan said. "That is only putting fires out—not prevention. Of the retarded pupils at least 20 percent could have been saved the humiliation of failure had the bureau been adequately equipped to study all cases."

Women Cheer Plea for a Friendly but Unfettered America

Neither enslaved nor enslaving, the strength and power of the United States lies in strict political independence, always ready to reach hands across the sea with aid and assist ance, but free to choose the time and the place where she will act, Keep America free from all the nations in the world!

torney General Oscar E. Carlstrom in an address opposing the world court, brought repeated cheers and applause from 900 members and friends of the Illinois Federation of Woman's Clubs at a preëlection rally at the Morrison hotel yesterday.

Citing numerous instances from history where past leaders have fought and suffered to maintain the political ntegrity and aloofness of America Mr. Carlstrom urged the women voters of Illinois to consider carefully the dangers of mixing up in European "Our brother citizens are trying to

coddle us into voting theri way," said Mary Hight, the second speaker, "But women must do their own thinking. We have had to be 'yes, yessers' and incense burners at masculine altars long enough. Women can have any thing they want by using their votes. Two per cent more women than men have the vote in Illinois, Mrs. Hight said. The women are responble if their state politics are not what they should be.

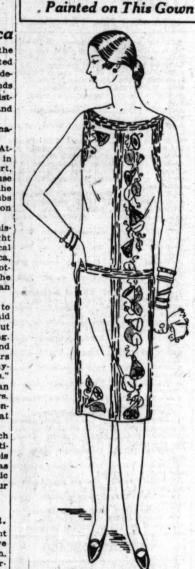

Presiding over the meeting, which was sponsored by the American citizenship department of the Illinois Federation of Woman's Clubs, was Mrs. Jasper T. Darling. Patriotic music was furnished by the "Four Legionnaires" quartet.

This Exercise Will Give Your Figure That Slender Look

"If any of your women readers want to know one good exercise to keep the figure erect and slender let me recommend mine. I am 40, the mother of two grownups. The other day I went to take out some insurance. The examining doctor congratulated me on my health and asked me about exer cises. When I told him I had one pet one he suggested that I might do some good work if I would broadcast it.

"He claims, as did my mother, who was a high school teacher and a wonderfully young looking woman at 60. that women suffer many ills because of the way they let the abdominal muscles and those of the lower part of the body slump waen they get along about 35. My mother never let a day of her life go by without doing this exercise, and naturally she made it a habit with me, too. It is so simple,

Stand on your toes, one foot in front of the other, pelvis tilted upward abdomen retracted, and hold a cane, a book, or a magazine with both hands high over the head. Stretch whatever article you hold in the hands as high as possible over the head; keep the entire body stretched as much as possi-Walk slowly on the tips of the toes. ## **EXPERTS' GRAND** JURY STORIES TOLD TO JUDGE

#### What Arnold Brautigam and Coffin Said.

BY PHILIP KINSLEY.

Arnold H. Brautlgam, real estate coker, who, it is charged, received \$182,000 of the sums paid to the real estate experts by the city in 1920, entered the hearing before Judge Hugo M. Friend yesterday through the reading of the testimony which he gave fore the special grand fury in 1923.

In his first appearance before the grand jury, the record shows, on May 25, 1923, Mr. Brautigam admitted that he had done valuation made that he had done valuation work for Arthur S. Merigold, his co-defendant in this trial, on the city beautiful plans, but he refused to tell how much money he got on the ground that he might incriminate himself.

Richert Left Same Firm.

It also was shown there that John Richert, former alderman and now chief of staff of the finance commit-tee, was at one time a member of the firm of Koen & Co. The other members were Frank J. Koch and Mr. Brautigam. Mr. Richert was chair-man of the council finance committee at the time the real estate experts got this money. He had resigned from the firm, however, in 1918.

An order from the court was asked by attorneys for THE TRIBUNE compel-ing Mr. Merigold or his counsel, John C. Farwell, to produce canceled checks of the Fort Dearborn National bank. Attorney Howard Ellis stated in an

evening. affidavit that he had information that this account would show that trust Anyhow, here's what happened: J Any amount that he had information that this account would show that trust funds of the city had been paid out by Mr. Merigold to "divers persons and political organizations."

Completes Coffin Story.

Reading of the testimony of Col. Percy B. Coffin was completed. This disclosed that he had avoided grand jury appearance for two months; that ist, also in group numbers. Miss Ladon evidently caught the intensity of Mr. Welton's singing, for her num-bers flashed fire as perhaps they have he had gone to Milwaukee, where he had met Michael J. Faherty, Michael White, Ernest H. Lyons, and others, and had consulted with Attorneys Clarence S. Darrow and Patrick H. O'Donnell before finally consenting to "appears. Mrs. Coffin, it appears, had been brought before the jury in his absence, had met her husband in Milwaukee later, and she was "in a state of collapse." WASTED-PEHALE HELP. LADIES, READ THIS! IF YOU REALLY NEED

MONEY, READ EVERY WORD. NEW WAY TO MAKE MONEY AT HOME.

Would you like to make money at home—and have fun doing it? Would you like to earn an extra pay check every week for delightful adventure with a nationally famous institution— financially rewarded while enjoying a beautiful, cultural experience? ARSOLUTELY NO EXPERIENCE NECESSARY.

A simple and most fascinating way to earn an extra income in your spare time. Will in no way intrude upon your present occupation. It is so wonderful that members say it seems too good to be true—but hundreds know it is true, and more are joining every day.

\$35-\$50 WEEKLY.

Whether you merely wish to devote your spare time and add to your present income, or wish to leave your present occupation for a larger income, your success is positively assured if you are really sincere. We do not believe that a more remuine opportunity exists in Chicago today for the self-supporting lady, but you must act promptly, as we have an exact number to employ, and when the quota is filled we will engage no more.

Call promptly at 8 o'clock Friday evening, March 19, 4th floor, 360 N. Michigan-av, [London Guarantee and Accident Bldg.]. Don't forget, Fri-day evening only.

\$35-\$50 WEEKLY. PAY CHECK SATURDAY

MORNING EVERY WEEK. Would you devote every mement of your spare time if you were promised \$50 per week as an extra income. Through the expansion of our \$7 offices additional positions have been created Work may be done in spare time. Full time pary you twice as much. Business ladies, housewives, teachers, and nurses are acceptable. If you do not care to work in the loop, work may be done at your own home. Investigate immediately. This ad will appear until Friday evening only. Every one given fullest consideration.

EXPERIENCE NOT NECESSARY!

Remember, an extra pay check every week! Cail at 8 o'clock Friday evening. March 19, 4th floor, 360 N. Michigan-av. [London Guarantee and Accident Bldg.]. OMAN OF REFINEMENT
